SUMMARY

I'm a passionate learner with a strong command of Java programming and a good understanding of C and C++. I've learned HTML, CSS, and JavaScript for front-end development and learned DBMS and SQL for managing databases. I also have a basic understanding of Data Structures and Algorithms (DSA), which helps me improve my logical thinking and problem-solving skills.

I enjoy working on real-time projects where I can apply my knowledge to build practical and user-friendly solutions. I'm familiar with tools like Git, GitHub, and VS Code, and I always look for opportunities to learn new technologies and strengthen my technical and logical skills.

SKILLS

TECHNOLOGY

- Core Java
- HTML
- CSS
- JavaScript
- Problem Solving

DATABASE

- DBMS
- SQL

TOOLS

- Git
- GitHub
- VS Code

EXPERIENCE

June 2024 -Sep 2024

TECHMATE Gzb.
